

## PYTHON DEVELOPER

### About Us

Kiu means "Bridge" - a bridge that connects people and businesses together. We are a social enterprise that is impacting small businesses today to make for a better Cambodia tomorrow. We work with small and medium-sized businesses (SMEs) and enable them to run their businesses more efficiently. When SMEs prosper, so do the communities they come from. Kiu develops powerful technology tools to help companies succeed. We will help you do the same with your career. In 2015, Kiu pioneered the idea of a fully integrated, cloud-based business management platform for the emerging markets, creating a whole new economy. Today, Kiu has helped over 25,000 companies and millions of careers grow like never before.

For more information, please visit our website at [www.kiuglobal.com](http://www.kiuglobal.com).

### Your Role

Kiu Global is building a platform that offers simple, flexible, and affordable tools for enterprises to manage their businesses and access credit. To go global faster, we are looking for someone who is passionate about: financial technology, banking software, and enterprise resource planning (ERP) software.

Our development team focuses on product development and how to deliver the best products to customers so you will stay on the cutting edge of software development and opportunities to apply new technologies to the product.

As you are building products for businesses of all different industries, you will be able to learn more about how businesses operate in addition to being able to hone your programming abilities. You will be able to work with other developers remotely to design and develop Odoo apps (new module development and customizations).

### Requirements

- Bachelor's Degree in Computer Science, Engineering, IT or equivalent;
- At least 1 year of working experience, preferably in Web or Software Development, or in Information Technology;
- Strong knowledge of Python, OOP programming concepts, data structures and algorithms;

- Demonstrated experience or familiarity with SQL, HTML and CSS;
- Strong analytical thinking and problem-solving skills;
- Be able to work well independently and as part of a team;
- Good English and Khmer speaking, reading and writing abilities.

#### **Bonus Points**

- Knowledge of major Odoo modules such as Accounting, Sales, Manufacturing, Inventory and Human Resources;
- Knowledge of Source Version Control, RPC, Restful APIs, CI/CD, Message Queue, Caching;
- Knowledge about AWS;
- Familiarity with \*NIX environments;
- Business knowledge about ERP and SaaS;
- Interest in enterprise application development or techno-functional expertise.

#### **Benefits**

- Salary: US\$400-700 (based on experience);
- 18 days of paid annual leave;
- Paid public holidays according to the statutory regulations;
- Training provided;
- Team building dinners, company trips, etc.;
- Friendly, start-up working environment with awesome colleagues;
- Opportunities to travel on business trips to Myanmar, Vietnam, Philippines, Thailand, and Bangladesh;

#### **Working time and location**

- From Monday - Friday (8:00 AM – 5:00 PM)
- Kiu Cambodia Office – Phnom Penh, Cambodia

#### **How to apply**

All interested candidates, please send your CV in English to:

- Director - Mr. Dara Ouk
- Email: [dara@kiuglobal.com](mailto:dara@kiuglobal.com)

*\* Please note: We thank all applicants; however, only short-listed candidates will be contacted for interviews.*
